EXPERIENCE

PwC   Miami, Florida (Remote)

Deals Intern (Capital Markets and Accounting Advisory Services, CMAAS)   January 2022 – March 2022

- Advised clients on complex accounting and financial reporting issues around deals and other transformational events that impact an organization's value
- Consulted with clients in exit readiness and preparation of carve-out financial statements
- Wrote and worked on accounting policy memos advising clients on complex accounting matters that are rooted in a deep understanding of accounting topics

Rea & Associates, Inc. (formerly Dyer Roche & Company, Inc.)   Wooster, Ohio

Audit Intern   May 2020 – January 2022

- Underwent a merger with Rea & Associates (11/1/2020)
- Audited manufacturing, non-profit companies, and employee benefit plans (ERISA)
- Completed compilations and reviews for a variety of companies
- Prepared financial statements, booked adjusting, reversing, reclassifying, and consolidating journal entries
- Prepared Federal Income Tax Returns (1040), Corporate Tax Returns (1120, 1065), Payroll Tax (940), Tax-Exempt Organizations (990)

COMPUTER SCIENCE PROJECTS

X (Previously Twitter) Post Bot with Images

*Video: https://youtu.be/veheaaMRS_Q **Code:** https://github.com/wiggam/x-twitter-bot **X Account:** @biblical_art*

- Created a X (Twitter) post bot using Python. This bot will post tweets, including text and images, on X (Twitter) on a scheduled basis from a SQLite database on a remote server
- Trained AI to generate over 800 entries to the SQLite Database. Created a Custom Google Image Search API to search and temporarily download images to be uploaded with their corresponding tweet
- Deployed the bot on a remote Ubuntu Lamp server on Digital Ocean so that the bot will continue to post indefinitely without any maintenance

Steam Investment Manager

Code: https://github.com/wiggam/cs-investment-manager

- Created an application that allows users to manage and track their steam investments using Python. This application creates a FastAPI instance that runs on the local device. The application allows users to store, edit, and view the value their investments. It automates the process of pulling the current prices for each individual investment
- Trained AI to assist in building a user interface that allows the user to interact with the FastAPI app and execute routes.

HONORS AND AWARDS

Notch Esports, LLC

Founder   May 2021

- Founder of a start-up company, Notch Esports, which helps schools start and maintain their esports program.
- Competed in and won $5,000 from Trinity University's Stumberg competition
- Notch Esports provides everything from equipment (computers, peripherals, etc), league enrollment, practice scheduling, match/scrimmage scheduling, coaching, and student involvement and recruitment. Each school plan is tailored to where a school is in its Esports program lifecycle.
